## **DETAILED ACTION**

## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Phouphanomketh Ditthavong on 15 March 2007.

The application has been amended as follows:

Claim 25: A computer-readable storage medium, including only volatile media or non-volatile media, storing earrying one or more sequences of one or more instructions for providing content transmission over a data network upon placement of a call on hold, the one or more sequences of one or more instructions including instructions which, when executed by one or more processors, cause the one or more processors to perform the steps of:

Receiving a message from a first client indicating the hold condition of the call with a second client;

Generating a request message, in response to the hold condition, for performing call control on behalf of the first client; and

Transmitting the request message to a content server to instruct the content server to transmit content stored therein to the second client.

Art Unit: 2145

Claim 25 has been fixed in order to place the claim in a statutory embodiment. It may no longer be drawn to software per se or signals per se.

2. The following is an examiner's statement of reasons for allowance: the examiner accepts the judgment of the board decision.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion
